

**Journeyman/Apprentice Lineman.** Custer Public Power is currently seeking a Lineman for the Thedford outpost. This position is open to both Journeyman and Apprentice level applicants. The Apprentice/Journeyman Lineman represents CPPD to customers. This position performs construction and maintenance of district transmission, substation, and distribution facilities. This position is the culmination of an extended training period planned to develop a competent craftsman who can provide the needed services for the construction, operation, and maintenance of the electrical distribution system. The Apprentice/Journeyman Lineman is expected to be able to perform all types of line work with or without supervision. The Apprentice/Journeyman Lineman should provide supervision to and assist Apprentice Lineman and Ground man.

High school diploma or GED is required. Associate degree in line construction desired. Completion of the four-year, Merchants Program (or equivalent) desired (required for new employees and for current employees for advancement or lateral movement). Must be or will be trained in CPR, basic first aid and capable of pole top and bucket truck rescue.

Individuals without prior line experience or formal education in line construction who are interested in becoming a lineman are encouraged to apply. Custer Public Power District will provide in-house education and hands-on training for motivated candidates who are willing to learn and develop the skills necessary to succeed in this career.

Location is Thedford-based fieldwork.

Those interested should submit a cover letter outlining your qualifications, a current resume, references and at least one letter of recommendation to Katie Fick by 5:00 p.m. on Wednesday, March 11<sup>th</sup>.
