

Full-Time Faculty – Electrical Construction & Control Instructor

General Description

The purpose of this position is to provide basic, intermediate, and advanced training and assessment in electrical principles and practices. This may include training in topics related to programmable logic controllers (PLCs), solid state devices, and other advanced electrical concepts. This is accomplished by maintaining requisite office hours; providing academic advisement to students; serving on college committees; attending meetings; participating in professional development activities; and performing all instructional-related activities as directed within the policies, guidelines, and regulations of Northeast Community College.

Qualifications: Education

Required: Bachelor's Degree in related field or an Associate's Degree from an accredited college. A combination of license and/or certification at a Journeyman's level or higher in the field is also required.

Qualification: Experience

Required: Five full-time (or equivalent) years of verified, related paid work experience as a licensed Journeyman or Master electrician in residential, commercial, and/or industrial setting.

Preferred: Three years of experience as a trainer/mentor within industry or an educator. Experience with education/training is also desired.

Qualification: Skills

- Strong knowledge of electrical principles and a profound knowledge of the National Electrical Code, wiring methods, and electrical safety.
- Verifiable skills in programmable logic controllers (PLCs) and other advanced electrical concepts.
- Working knowledge of Microsoft Office products, primarily Word, Outlook, Excel, and PowerPoint.
- Excellent interpersonal communication and team building skills.

Salary and Benefits

Salary is based on the faculty salary schedule. This position is eligible for Northeast Community College's excellent fringe benefits package. Cash-in-lieu of Health Insurance may be available depending upon successful candidate's coverage enrollment.

Special Instructions to Applicants

Candidates selected for an interview will be required to present a 10-15 minute teaching demonstration focusing on the subject matter of the position.
