

Full-Time Faculty – Utility Line Instructor—Off Campus Region II

General Description

Northeast Community College, a Nationally Ranked Community College located in Norfolk, Nebraska is seeking a talented individual to fulfill the role of Utility Line Instructor – Off Campus Region II in Central Nebraska. The successful candidate will instruct job training and safety class sessions as required, and assist in the development of training activities for the Nebraska Rural Electric Association, Nebraska Municipalities, and other participating electrical utility organizations as assigned by the Dean and Job Training and Safety coordinator.

This is accomplished by maintaining requisite office hours; providing academic advisement to participants; serving on college committees; attending meetings; participating in professional development activities; and performing all instructional-related activities as directed within the policies, guidelines, and regulations of Northeast Community College. This position will primarily maintain training responsibility for electrical utility organizations within Region II, consisting of the central third of the State of Nebraska. The trainer must reside within or near the Region II training area.

Qualifications

Education – Bachelor’s degree or an Associate degree in the field with five years of work experience required.

Experience – Requires extensive background in electrical safety and regulatory issues as it relates to high voltage rural electric work practices. Ability to develop and use effective organization and work procedures. Experience in education/training is desired.

Skills – High Voltage Utility Worker background required.

Special Instructions to Applicants

Selected candidates will have to conduct a 10-15 minutes presentation or lecture as part of the interview process.

Salary and Benefits

The successful candidate’s salary will be calculated based on education and experience within the grade range. The position will include a contract extension of 50 days calculated at the daily rate. This position is eligible for full-time fringe benefits. Cash-in-lieu of Health Insurance may be available depending upon successful candidate’s coverage enrollment.
